

The United States Agency for International Development (USAID) maintains a database of United States Government initiatives to build trade-related capacity in developing and transition countries. The Trade Capacity Building Database, or TCB Database, is available on the web at:

<http://qesdb.cdie.org/tcb/index.html>

or

www.usaid.gov, keyword: **TCB Database**

The TCB Database contains two types of data: funding data and activity data. Funding data shows levels of TCB funding, while activity data provides detailed activity descriptions. Both funding data and activity data are searchable by country, TCB category, and funding or implementing U.S. Agency. Search results will appear on the screen formatted for printing or can be saved as an Excel file.

Use the links on the navigation bar to begin your search.

Activity Title	Activity Description	TCB Category	FY 03 Total
Angola Trade Capacity Building	The Commercial Law Development Program (CLDP) program in Angola works with the judiciary to introduce case management techniques aimed at improving the efficiency of the country's judicial system. CLDP, working closely with a court in the US, developed a training program for an Angolan delegation to introduce the principles of case management. As a result of the program, the Angolan participants, drawing from U.S. experiences, identified four procedures that will be implemented in Angola related to filing procedures and assignment of judges.
